It’s Census Time!
I COUNT. YOU COUNT. EVERYONE COUNTS.

What is the Census?
Every 10 years, the U.S. Census Bureau sets out to count every person living in the United States regardless of age, citizenship status, or gender. Getting the 2020 Census right is important for all our communities.

Why is it important?
Services such as health, housing, transportation, education, child services, and more, are provided with $675-billion in annual federal funding. California gets a portion of this money depending on the number of people who fill out the Census.

Census data is also used to:
• Allocate the number of representatives in Congress among states
• Draw districts for state and local elections
• Draw the congressional district boundaries

Will the library offer help?
Yes, all San José Public Library locations will offer a Census station equipped with computers and information for your to access.

How can I participate?

DIGITALLY
Online questionnaire via desktop, laptop, or mobile.
2020Census.gov

MAIL-IN
A printed form will be mailed to you, if you don’t complete the online questionnaire.

As we leave 2019 behind and roll into a new decade, I hope the New Year brings you joy and success!

Here at the San José Public Library, we are excited to turn the page to a new year, filled with new ideas, services, and opportunities for our communities. But first, we cannot forget what an amazing year we had in 2019! The past year was filled with successes, thanks to our dedicated staff, volunteers, partners, and advocates.

Highlights from 2019 included:

San Jose Sharks Library Card
On February 4th, we introduced our first-ever sports related library card after partnering with our local hockey team, the San Jose Sharks. Since its release, we’ve issued over 17,000 of these library cards. Thank you fans for exercising your #RightToLibrary! Due to the success of this partnership, SJPL was awarded with the 2019 Urban Libraries Council (ULC) Top Innovation Award. sjpl.org/SJSharks

Our Newest Library Location
On April 8, we opened our 25th library location, the Mt. Pleasant Neighborhood Library, in east San José. The grand opening celebration was attended by more than 200 community members, including City leaders and educators. This location is SJPL’s first "bridge branch" designed to provide library services to residents in neighborhoods where geographic barriers may limit access. sjpl.org/MtPleasant

New Website and Catalog
Our new website and catalog offers users smarter searching, better browsing, a fresh design, and a more engaging online experience. If you haven’t done so already, start exploring and keep up with all SJPL happenings by visiting sjpl.org.
Education & Digital Literacy Strategy (EDL)
SJPL is proud to lead the City of San José’s EDL Strategy created to open a world of learning opportunities outside the traditional classroom and further help students learn, explore, connect and grow. Through this strategy, we're focusing our efforts on a city-wide education policy, quality STEAM programs, early education options, improved after-school programming, college and career readiness, and digital literacy. I invite you to learn more about this strategy by visiting: sjpl.org/EDL

San José Student Library Card
Our goal is to partner with every local school district to ensure that every student in San José has access to all public library services by offering them an exclusive San José Student Library Card. To date, we have established partnerships with eight school districts and provided approximately 58,154 students with library access to a world of knowledge both in school and out of school time. To learn more about this initiative, with a complete list of current partnerships, visit: sjpl.org/StudentCard

Whether it’s adding to our collection, launching a new service, or introducing a new library card design, we’re always looking for ways to improve your experience and encourage you to actively use your library.

In 2020, we will have a few major announcements regarding NEW programs and services that will soon be introduced. While there are too many to list here, I can at least tell you about the following projects to look out for:

Lactation Pods
This year, we will be installing freestanding, spacious, ADA compliant lactation suites at several of our libraries to provide you with a private, secure, and clean space to nurse your child or pump.

King Library’s Children’s Room Renovation
Our youngest children will have a new and improved interactive learning space where they’ll explore and learn using state-of-the-art tools and toys. The renovation will also include a new underwater theme made possible thanks to the generosity of the San Jose Sharks Foundation. Join us for a groundbreaking community celebration on Friday, January 31 from 4-5:30 PM inside the Children’s Room at the Dr. Martin Luther King, Jr. Library. A special storytime will be presented by the San Jose Sharks and Barracudas.

Pop-Up Library
You’ll soon be able to access free downloadable eBooks from SJPL with or without a library card in designated areas of the Norman Y. Mineta International Airport and Eastridge Mall. With this new service, we’ll extend the Library’s presence in the community to promote access to our digital collections and attract new library members.

3D Printers
Guess what! All of our libraries are being equipped with 3D printers available for you to use at no cost. Our staff will be offering special programs, where you’ll learn to design and print 3D objects made of filament. Check your branch’s event calendar for a list of upcoming programs.

San Jose Earthquakes Library Card
Major League Soccer (MLS) team, San Jose Earthquakes, has been an excellent Library partner for several years. This year, we are excited to bring you the first-ever SJ Earthquakes library card and a series of exclusive events with some of your favorite soccer players. The card design will be introduced later this year, so stay tuned!

**FICTION**

“I have waited anxiously for this second book by Morgenstern. I adored the Night Circus and when they announced Starless Sea, I was thrilled. This book was fantastic and amazing and all sorts of good words that I can’t adequately use.” @DracAthos

“The weird, wonderful, awful and bizarre places and objects in our world are showcased in these pages. It may inspire you to take a detour on your next holiday or simply enjoy exploring from the comfort of your own home.” @LoganLib_Phoebe

“A satisfying read. I love how Holly Black can make my heart strings tug with very little words. We get to love/understand every character a little bit more... I feel a sense of completeness.” @LostinScribbles
“An action-packed and compelling middle grade mystery that follows Alex Cross’s youngest son, Ali. Contains multiple points-of-views with one being Ali and the other being his dad Alex.” @OPL_KrisC
